

BAYANIHAN AGAINST COVID-19

In partnership with:

Department of Public
Works and Highways

By donating construction materials and other supplies, Allhome partners with DPWH in the conversion of PICC to an improvised health facility. This aims to decongest the hospitals and segregate the COVID-19 victims from regular patients. The project is slated to be completed in ten days.

Together with the DPWH and our suppliers like Boysen and FMI Fibrefill Manufacturing Inc., we are all doing our part in saving the country from this Global Pandemic. **We will heal as one. Kaya natin to!**
